This cross-sectional view shows the internal structure of the device. It features a central core (114) surrounded by a shell (302). The core is composed of several segments, including a central segment (116) and side segments (146). The shell is made of a material (304) that is different from the core. The device is shown in a cross-section along line AA', with the left end labeled (AA').
